specialists to the
Foodservice,
Hotel and Health
Care Industries*

Clean your produce with a natural and safe to use fruit and vegetable wash. **FIT Fruit and Vegetable Wash** kills harmful bacteria such as E. Coli, Salmonella sp., Staphylococcus aureus and Listeria, all of which have been associated with food-borne illness. This product is made from all natural food ingredients found everyday, including citric acid and grapefruit oil. This item is recommended for use on cut, chopped, sliced and all other processed product.

Features

- Cleans produce better by removing significantly more dirt, soil and people-handling residues than chlorine based cleaners.
- Rinses away clean.
- Ease of use.
- Inexpensive—At less than a penny a plate, you cannot afford to *not* use it!

Benefits

- Safer for employees to use. No need for protective eyewear and gloves.
- Available in convenient single-dosing powder pouches. Each pouch makes 5 gallons of solution and cleans and sanitizes over **200 pounds** of processed produce.
- Each 20 lb bucket makes **450 gallons** of solution, and cleans and sanitizes over 18,000 pounds of processed produce.
- Each 1 gallon bottle makes 128 gallons of solution, and cleans and sanitizes over **5,000 pounds** of processed produce.
