

Eco-formulated cleaning solutions

Green Cleaning moves all of us toward sustainable and more ecosensitive cleaning products that perform effectively.

ProClean is pleased to bring you the latest additions to our ProClean Green Line of Environmentally friendly products. Each of these products utilize the latest ingredients that are less hazardous to the environment, without sacrificing performance. We are proud to be the only chemical supplier to provide you with a line of green cleaning products that meet your solid mechanical needs.

PowerSafe Solid Mechanical Detergent

ProClean Green PowerSafe is an environmentally friendly, non-phosphated solid detergent for mechanical dishwashing applications. This product provides heavy duty cleaning power, yet is safe on all metals. In addition, no more struggles to move heavy pails of detergent! Much easier to use over competitive systems. Also cuts plastic packaging by as much as 75% over conventional pails, reducing environmental waste. Using environmentally preferred ingredients, Power Safe contains no hydroxides, complex Phosphates (STPP) or Nitrilotriacetate (NTA). Power Safe rinses quickly and is suited for use with newer, short-cycle dish machines.

EnviroSoak Solid Flatware Presoak & Detarnisher

EnviroSuds Solid Hand Dishwash Detergent

ProClean Green EnviroSoak is a unique solid product that provides effective and economical presoaking of kitchenware and cuts down wasted product. Works in all water conditions. Does not contain phosphates for NTA.

ProClean Green EnviroSuds supplies superior detergency for manually washing pots, pans, dishware, cookware, glassware and flatware. Fortified with the highest quality surfactant system for unsurpassed grease removal. Rich long lasting suds stand up to any difficult cleaning task. High detergency level assures sparkling clean results. pH balanced.
